Subject Index

acetone

Highly selective one-step formation of methyl isobutyl ketone from acetone with a magnesia supported nickel catalyst 1

acid-base properties

Acid-base properties and direction of oxidative transformations of methane on magnesium-phosphorus catalysts 15

aerogel

Catalytic alkylation of phenol with methanol on a microporous xerogel and a macroporous aerogel of high surface area aluminas 339

aerogel catalysts

Intermediate species on zirconia supported methanol aerogel catalysts. I. State of the catalyst surface before and after the adsorption of hydrogen 297

aging

Coking kinetics of fresh and thermally aged commercial $\text{Cr}_2\text{O}_3/\text{Al}_2\text{O}_3$ catalyst 185

Coking, aging and regeneration of zeolites. XIV. Kinetic study of the formation of coke from propene over USHY and H-ZSM-5 351

alkaline earth oxides

Stabilisation of aluminas by rare earth and alkaline earth ions 105

alkaline earths

Effect of alkaline earth added to platinum-supporting oxides on platinum dispersion and dehydrogenation activity 207

alkali promotion

Structure and reactivity of alkali-doped calcium oxide catalysts for oxidative coupling of methane 167

alkylation

Catalytic alkylation of phenol with methanol on a microporous xerogel and a macroporous aerogel of high surface area aluminas 339

alumina

Stabilisation of aluminas by rare earth and alkaline earth ions 105

Effect of acidic and basic vapors on pore size distribution of alumina under hydrothermal conditions 117

Catalyst characterization by a probe re-

action. Effect of tin addition in $\text{PtSn}/\text{Al}_2\text{O}_3$ 199

Catalytic alkylation of phenol with methanol on a microporous xerogel and a macroporous aerogel of high surface area aluminas 339

ammoxidation

Ammoxidation of toluene to benzonitrile over vanadium-bismuth scheelite 269

amorphous metals

Methanol synthesis by amorphous copper-based catalysts prepared by spark-erosion 151

amyl ethyl ether (tert-)

Reactivity of isoamylenes with ethanol 283

(Ba,Ca)(Co,Fe) $\text{O}_{3-\delta}$

Oxidative coupling of methane on perovskite oxides, $(\text{Ba,Ca})(\text{Co,Fe})\text{O}_{3-\delta}$ 63

benzene hydrogenation

Benzene hydrogenation on platinum and iridium catalysts. Variation of the toxicity of sulfur with the nature of the support 143

benzonitrile

Ammoxidation of toluene to benzonitrile over vanadium-bismuth scheelite 269

bimetallic

Catalyst characterization by a probe reaction. Effect of tin addition in $\text{PtSn}/\text{Al}_2\text{O}_3$ 199

bimetallic catalysts

Conversion under hydrogen of dichlorodifluoromethane over bimetallic palladium catalysts 41

butane (2-ethoxy-2-methyl-1-)

Reactivity of isoamylenes with ethanol 283

C_8 aromatics

Desired and undesired ethylbenzene dealkylation over MFI zeolite catalyst 95

calcium oxide

Structure and reactivity of alkali-doped calcium oxide catalysts for oxidative coupling of methane 167

carbon dioxide

Methanol synthesis by amorphous cop-

- per-based catalysts prepared by spark-erosion 151
- carbon monoxide
 - Methanol synthesis by amorphous copper-based catalysts prepared by spark-erosion 151
- catalyst characterisation (SEM)
 - Methanol synthesis by amorphous copper-based catalysts prepared by spark-erosion 151
- catalyst characterization (ESR)
 - Dispersion and activity of vanadia supported on phosphate modified silica 221
- catalyst characterization (TPR)
 - Redox behavior of trimanganese tetroxide catalysts 233
 - Amoxidation of toluene to benzonitrile over vanadium-bismuth scheelite 269
- catalytic properties
 - Comparison of the catalytic properties of protonic zeolites and exchanged clays for Diels-Alder synthesis 253
- catalytic reduction
 - Kinetic model for the reaction of sulphur dioxide catalytic reduction to hydrogen sulphide 25
- chromia/alumina
 - Coking kinetics of fresh and thermally aged commercial $\text{Cr}_2\text{O}_3/\text{Al}_2\text{O}_3$ catalyst 185
- chromium exchanged montmorillonite
 - Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 129
- clay catalyst
 - Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 129
- coking
 - Coking kinetics of fresh and thermally aged commercial $\text{Cr}_2\text{O}_3/\text{Al}_2\text{O}_3$ catalyst 185
 - Coking, aging and regeneration of zeolites. XIV. Kinetic study of the formation of coke from propene over USHY and H-ZSM-5 351
- copper catalysts
 - Methanol synthesis by amorphous copper-based catalysts prepared by spark-erosion 151
- deactivation
 - Coking kinetics of fresh and thermally aged commercial $\text{Cr}_2\text{O}_3/\text{Al}_2\text{O}_3$ catalyst 185
- dealkylation
 - Desired and undesired ethylbenzene dealkylation over MFI zeolite catalyst 95
- degradation kinetics
 - Influence of pH on the degradation kinetics of nitrophenol isomers in a heterogeneous photocatalytic system 7
- dehydrogenation
 - Effect of alkaline earth added to platinum-supporting oxides on platinum dispersion and dehydrogenation activity 207
- dichlorodifluoromethane
 - Conversion under hydrogen of dichlorodifluoromethane over bimetallic palladium catalysts 41
- Diels-Alder synthesis
 - Comparison of the catalytic properties of protonic zeolites and exchanged clays for Diels-Alder synthesis 253
- dispersion
 - Effect of alkaline earth added to platinum-supporting oxides on platinum dispersion and dehydrogenation activity 207
- double-bond oxygen species ($\text{V}=\text{O}$)
 - Amoxidation of toluene to benzonitrile over vanadium-bismuth scheelite 269
- DTA
 - Redox behavior of trimanganese tetroxide catalysts 233
- electron microscopy
 - Hydrogenation catalysts based on nickel and rare earth oxides. Part II: XRD, electron microscopy and XPS studies of the cerium-nickel-oxygen-hydrogen system 73
- etherification
 - Reactivity of isoamylenes with ethanol 283
- ethylbenzene alkylation
 - Desired and undesired ethylbenzene dealkylation over MFI zeolite catalyst 95
- ethylene dimerization
 - Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 129
- ethylene polymerization
 - Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 129
- exchanged clays
 - Comparison of the catalytic properties of

- protonic zeolites and exchanged clays for Diels-Alder synthesis 253
- fluorohydrocarbons
 - Conversion under hydrogen of dichlorodifluoromethane over bimetallic palladium catalysts 41
- gas sensor
 - Sulfur poisoning, recovery and related phenomena over supported palladium, rhodium and iridium catalysts for methane oxidation 51
- heterogeneous photocatalysis
 - Influence of pH on the degradation kinetics of nitrophenol isomers in a heterogeneous photocatalytic system 7
- hydrodehalogenation
 - Conversion under hydrogen of dichlorodifluoromethane over bimetallic palladium catalysts 41
- hydrogen adsorption
 - Intermediate species on zirconia supported methanol aerogel catalysts. I. State of the catalyst surface before and after the adsorption of hydrogen 297
- hydrogenation
 - Catalyst characterization by a probe reaction. Effect of tin addition in PtSn/Al₂O₃ 199
- hydrogen storage
 - Hydrogenation catalysts based on nickel and rare earth oxides. Part II: XRD, electron microscopy and XPS studies of the cerium-nickel-oxygen-hydrogen system 73
- hydrogen synthesis
 - Intermediate species on zirconia supported methanol aerogel catalysts. I. State of the catalyst surface before and after the adsorption of hydrogen 297
- hydroprocessing catalysts
 - Effect of acidic and basic vapors on pore size distribution of alumina under hydrothermal conditions 117
- hydrothermal
 - Effect of acidic and basic vapors on pore size distribution of alumina under hydrothermal conditions 117

- perovskite oxides
 - Oxidative coupling of methane on perovskite oxides, $(\text{Ba,Ca})(\text{Co,Fe})\text{O}_{3-\delta}$ 63
- petroleum residues
 - Effect of acidic and basic vapors on pore size distribution of alumina under hydrothermal conditions 117
- phenol
 - Catalytic alkylation of phenol with methanol on a microporous xerogel and a macroporous aerogel of high surface area aluminas 339
- phosphate modified silica
 - Dispersion and activity of vanadia supported on phosphate modified silica 221
- photocatalysis
 - Influence of pH on the degradation kinetics of nitrophenol isomers in a heterogeneous photocatalytic system 7
- platinum
 - Benzene hydrogenation on platinum and iridium catalysts. Variation of the toxicity of sulfur with the nature of the support 143
 - Effect of alkaline earth added to platinum-supporting oxides on platinum dispersion and dehydrogenation activity 207
- pore enlargement

- Effect of acidic and basic vapors on pore size distribution of alumina under hydrothermal conditions 117
- probe reaction
Catalyst characterization by a probe reaction. Effect of tin addition in PtSn/ Al_2O_3 199
- propene
Coking, aging and regeneration of zeolites. XIV. Kinetic study of the formation of coke from propene over USHY and H-ZSM-5 351
- protonic zeolites
Comparison of the catalytic properties of protonic zeolites and exchanged clays for Diels-Alder synthesis 253
- PtSn
Catalyst characterization by a probe reaction. Effect of tin addition in PtSn/ Al_2O_3 199
- rare earth oxides
Stabilisation of aluminas by rare earth and alkaline earth ions 105
- rate constants
Kinetic model for the reaction of sulphur dioxide catalytic reduction to hydrogen sulphide 25
- reactivation by water
Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 129
- redox behavior
Redox behavior of trimanganese tetroxide catalysts 233
- regeneration
Coking, aging and regeneration of zeolites. XIV. Kinetic study of the formation of coke from propene over USHY and H-ZSM-5 351
- selectivity (C_{2+})
Structure and reactivity of alkali-doped calcium oxide catalysts for oxidative coupling of methane 167
- spark-erosion
Methanol synthesis by amorphous copper-based catalysts prepared by spark-erosion 151
- spillover
Intermediate species on zirconia supported methanol aerogel catalysts. I. State of the catalyst surface before and after the adsorption of hydrogen 297
- stabilization
Stabilisation of aluminas by rare earth and alkaline earth ions 105
- statistical analysis
Kinetic model for the reaction of sulphur dioxide catalytic reduction to hydrogen sulphide 25
- sulphide
Benzene hydrogenation on platinum and iridium catalysts. Variation of the toxicity of sulfur with the nature of the support 143
- sulphurdioxide
Kinetic model for the reaction of sulphur dioxide catalytic reduction to hydrogen sulphide 25
- sulphur poisoning
Sulfur poisoning, recovery and related phenomena over supported palladium, rhodium and iridium catalysts for methane oxidation 51
- supported noble metal catalysts
Sulfur poisoning, recovery and related phenomena over supported palladium, rhodium and iridium catalysts for methane oxidation 51
- surface area
Stabilisation of aluminas by rare earth and alkaline earth ions 105
- temperature-programmed oxidation
Redox behavior of trimanganese tetroxide catalysts 233
- temperature-programmed reduction
Redox behavior of trimanganese tetroxide catalysts 233
- thermal gravimetry
Oxidative coupling of methane on perovskite oxides, $(\text{Ba,Ca})(\text{Co,Fe})\text{O}_{3-\delta}$ 63
- thermodynamic analysis
Kinetic model for the reaction of sulphur dioxide catalytic reduction to hydrogen sulphide 25
- titanium dioxide
Influence of pH on the degradation kinetics of nitrophenol isomers in a heterogeneous photocatalytic system 7
- titration
Catalyst characterization by a probe re-

- action. Effect of tin addition in PtSn/
Al₂O₃ 199
- toluene
Ammoxidation of toluene to benzonitrile
over vanadium-bismuth scheelite 269
- toxicity
Benzene hydrogenation on platinum and
iridium catalysts. Variation of the toxicity
of sulfur with the nature of the
support 143
- TPO
Redox behavior of trimanganese tetroxide
catalysts 233
- transition metal exchanged clay
Ethylene polymerization over transition
metal-exchanged montmorillonite
catalysts 129
- unsaturated hydrocarbon hydrogenation
Hydrogenation catalysts based on nickel
and rare earth oxides. Part II: XRD, elec-
tron microscopy and XPS studies of the
cerium-nickel-oxygen-hydrogen
system 73
- USHY zeolites
Coking, aging and regeneration of zeolites.
XIV. Kinetic study of the formation of coke
from propene over USHY and H-ZSM-
5 351
- vanadia
Dispersion and activity of vanadia sup-
ported on phosphate modified silica 221
- vanadium-bismuth scheelite (BiVO₄)
Ammoxidation of toluene to benzonitrile
over vanadium-bismuth scheelite 269
- water-gas shift reaction
Kinetics of the water-gas shift reaction
over several alkane activation and water-
gas shift catalysts 317
- xerogel
Catalytic alkylation of phenol with meth-
anol on a microporous xerogel and a ma-
croporous aerogel of high surface area
aluminas 339
- XPS
Hydrogenation catalysts based on nickel
and rare earth oxides. Part II: XRD, elec-
tron microscopy and XPS studies of the
cerium-nickel-oxygen-hydrogen
system 73
- XRD
Hydrogenation catalysts based on nickel
and rare earth oxides. Part II: XRD, elec-
tron microscopy and XPS studies of the
cerium-nickel-oxygen-hydrogen
system 73
Dispersion and activity of vanadia sup-
ported on phosphate modified silica 221
Ammoxidation of toluene to benzonitrile
over vanadium-bismuth scheelite 269
- xylene isomerisation
Desired and undesired ethylbenzene de-
alkylation over MFI zeolite catalyst 95
- zeolite MFI
Desired and undesired ethylbenzene de-
alkylation over MFI zeolite catalyst 95
- zeolites
Effect of alkaline earth added to platinum-
supporting oxides on platinum dispersion
and dehydrogenation activity 207
- zirconia support
Intermediate species on zirconia sup-
ported methanol aerogel catalysts. I. State
of the catalyst surface before and after the
adsorption of hydrogen 297
- ZSM-5
Coking, aging and regeneration of zeolites.
XIV. Kinetic study of the formation of coke
from propene over USHY and H-ZSM-
5 351
